## Mobile Device Security Software Recommendations

Don't think your smart phone or tablet can get infected with a virus? Think again, even if it is an Apple product.

Through our research we have put together the following list of apps you should download to protect your mobile device.

### **Apple**

iPads iPhones: Virus Barrier

### **Android**

Tablets or phones: Avast Mobile Security & Anti-Virus

### **Windows**

Tablets or phones: Norton Studio

### **Blackberry**

Phones: Kaspersky Mobile Security for BlackBerry
